Dear Sir:

In response to the Office Action dated February 7, 2002, please amend the above-identified application as follows:

IN THE CLAIMS:

Please amend claim 1 (thrice amended) as follows:

- E1
1. (Four Times Amended) A beneficial microorganism propagation-promoting material which promotes propagation of a beneficial microorganism in a colon of a living being that helps to sustain the health of living beings, (said material comprising a substance that remains undigested up to the colon, said material being obtained by steps of:
- cooking solid form grains,
  - cooling the solid form grains to a temperature at which koji mold propagates,
  - inoculating koji mold on solid said form grains to create a koji preparation resultant,
  - adding water to said resultant to hydrolyze proteins and/or saccharides contained in said resultant,
